

**CITY OF VIDOR
CDBG-DR APPLICATION PROJECT SUMMARY
STREET/DRAINAGE IMPROVEMENTS – ORANGE ST.**

Project Description:

During Tropical Storm Imelda, the City of Vidor received over 2 feet of rainfall. Widespread flooding led to flooding of streets and overflow of drainage structures, causing environmental hazards and other threats to public health and safety. Roads were impassable and many high water rescues were required.

The proposed improvements will reduce a risk to public health and safety caused by the damaged streets and drainage ditches.

Construction will consist of street reconstruction and regrading of ditches on Orange Street from Woodland St. to Sargent St.

The Proposed Budget is as follows:

	TxCDBG Funds	Local Funds	Total Funds
Administration	\$100,000.00	\$0.00	\$100,000.00
Engineering	\$117,000.00	\$0.00	\$117,000.00
<u>Construction</u>	<u>\$783,000.00</u>	<u>\$10,000.00</u>	<u>\$793,000.00</u>
Total	\$1,000,000.00	\$10,000.00	\$1,010,000.00
